SURE WAY TO GET

blackheads, and that is to dissolve them.

To do this get two ounces of calonite powder from any drug store—sprinkle a little on a hot, wet sponge—rub over the blackheads briskly—wash the parts and you will be surprised how the blackheads have disappeared. Big blackheads, little blackheads, no matter where they are, simply dissolve and disappear, leaving the parts without any mark whatever. Blackheads are simply a mixture of dust and dirt and secretions from the body that form in the pores of the skin—pinching and squeezing only cause irritation, make large pores, and do not get them out after they become hard. The calonite powder and the water simply dissolve the blackheads so they wash right out, leaving the pores free and clean and in their natural condition. Anybody troubled with these unsightly blemishes should certainly try this simple method.—(adv.)

The Constitution takes this occasion to express the opinion that if the Tech faculty had joined in the action of the Tech senior class in inviting the University boys to ise Grant field in their play with Dartmouth the occasion would have been a love feast instead of a ript.

The correctness of our conclusion is emphasized by the fact that when the University and Tech basketball teams were brought together in Atlanta several months ago the occasion was one of rejoicing and hearty good fellowship; this is strengthened by Georgia's hearty approval of far? The Journal of Labor has persistently maintained that the only way to get rid of the bootlegger is to send him to the chaingang.

There should be no discrimination made on account of race, creed or social position of the person found guilty of peddling liquor.

We have said time and again that the bootlegger in carrying on his business was challenging the moral character and good citizenship of this community. He is challenging the courts, and on top of that defying the majesty of the law. So successful has he been in securing immunity from interference that he and all his fellows might well be catalogued with the privileged class.

ADOPT RESOLUTIONS

Editor Constitution: The article in Sunday's Constitution of October 30, by Cordell Hull, and your editorial, are both most timely, and should be read by every thinking man and woman in this country. I know of no better service you could render to the people, than to write more editorials on this same subject, and publish this same article of Mr. Hull until everybody had had a chance to read it. It is too good for anybody to miss reading.

If all the papers in this country would call the attention of their readers to this wonderful document they would do a great service to the public. It would open the eyes of many who have been led to believe that Mr. Wilson was wrong. It is inconceivable that leading republicans even could deliberately deceive the public on so great a question, solely for the purpose of them all.

An eminent all-around specialist, that is to say, a specialist on nearly everything from the level of the thyroid cartilage to the level of the greater trochanters, if you are up on anatomy, remarks in a terribly dull paper on paunch that "the more in-telligent woman will wear a suitable supporting corset to overcome this sagging of the abdominal wall."

It is certainly strange how long it takes old doctors, sometimes, to learn new treatments. This one has it all wrong. It is the unintelligent woman who resorts to corsets and splints or casts to do the work the uscles ought to do. It is the mor telligent woman, nowadays, who dis cards corsets, or depends upon them as little as possible considering her past errors in hygiene.

I gather, from a more or less curs ory, but withal not profane, estimate of the last 20,000 complaints I have heard, that the hateful slacker flesh accumulates first about the belly, loins and hips. The cashier will be 35 years old today, and employees in the office of Secretary of State S. Guyon McLendon decided to adopt a novel and unique method of apprising Mr. Cook of their interest in this occasion. Many suggestions were made as to a program, when A. T. Harris, chief clerk, spoke of the vocal powers of his 11-year-old rooster. Mrs. H. H. Rainey then became the "life of the party" by suggesting that the rooster be purchased and placed on the desk of the cashier early Wednesday morning.

For a stipulated sun raised in the office and for other considerations, Mr. Harris tearfully agreed to relinquish all title, interest, hereditaments, claims of his heirs, assigns, forever in fee simple, in the old rooster, and the deal was closed.

Chaperoned by Mrs. Rainey, as chairman of the committee on entertainment, the ancient fowl was taken to the capitol late Tuesday, and will be on hand to greet Mr. Cook with lusty crows soon after the morning sun peeps blinkingly over the crest of Stone mountain Wednesday morning.

To Alfred Merriweather, who, from the beginning, had followed with a most fevered interest the great European conflict, the sudden climax in his own land growing out of the Mexican situation, had before then come with a shock, tremendous, startling, and tragically personal.

The rebellious longing for the life of the soldier, pathetic in view of his own frailty, had become with him an obsession against which Evelyn and Dr. Beverley strove in vain. And when finally war with Mexico seemed to be imminent and the entire national guard of the country was ordered out, the hourly excitement undered out, the hourly excitement undered out, the hourly excitement undered out, the hourly excitement with a down beside him.

"Don't, Alfred, don't read them any more!" she cried, a note as tenderly more!" she cried, a note as tenderly more! she were speaking to a sick child. "You know Dr. Beverley said—" earth are you two thinking of? Do you expect me to sit here like a doddering old woman, neither knowing nor carriag about anything? It is simply monstrous. Let me ask you not to hid the paper from me any more."

Evelyn glanced quickly at him, surprised into a blank silence by the absence of his customary courtesy.

tional guard of the country was ordered out, the hourly excitement under which he lived threatened to overthrow his feeble strength and to reduce him to that state of complete invalidism which Evelyn long had feared, and from which, thus far, her strong will and unceasing, care had mercifully saved him.

But in the great issues of the world war now before the country they were at variance. These "listening lessons," as they were called, created a great deal of

interest among the children. The grammar school principal, who had written to Mr. Hutcheson, declared in reference to the contest that: "It would take super-children, who had caught the spirit of Apollo, to learn fifty high-brow pieces, together with the unspellable names of the foreign composers, and also the nationalities, all in eight months; so this is a farce, doing nobody good except the music houses.

Anxious for Approval.

"The teachers are all anxious for the nod and approval from various directors of this, that and the other, in order that their reports may insure their salaries." She said the schools were being turned into "parade" places.

After hearing these statements the board voted to issue instructions to the teachers to stick strictly to the curriculum, and referred the principal's letter to Superintendent W. A. Sutton for investigation.

The music memory contest is under the supervision of Miss Kate Harralson and Miss Ruth Weegan, musical directors in the schools. A test, participated in by 6,800 children, was held at the Auditorium last Saturday morning.

Miss Harralson Talks.

Miss Harralson stated Tuesday night that the list of fifty selections used in the memory contest was furnished by the National Bureau for the Advancement of Music, and is the same list used in the schools of forty-six other cities in the country. Musical memory contests have been given for years in the schools of a large number of cities, she stated. According to her statement the contest here was put on with the approval of Superintendent W. A. Sutton and Assistant Superintendent H. R. Hunter. She laughed at the idea any way involved.

Miss Harralson is Georgia chairman
of the national bureau.

SPLIT OVER SURTAX rests, occurred late Tuesday night, a city of Atlanta car, license tag number 36, on its way south on Boule-Washington, November 8.—The break in the ranks of house republicans over the acceptance of the senare maximum income surtax rate of 50 per cent continued today to widen.

House leaders sought to defer the fight at least until after the rewriting of the bill by the conferees gets underway, but whether negotiations to that end, which were opened with the "insurgent," would be successful, remained to be determined.

If the negotiations started today terminate without an agreement, the majority leaders plan to bring in a rule to force the bill to conference without instructions to the managers. In that event, the republican "insurgents" and the democrats are prepared to make a fight on the rule. Losing in that, the say they still will be in a position to renew the light when the house managers ask for instructions.

House leaders are understood to be ready to accept a compromise on the surfax rate at an increase of approximately 8 per cent over the 32 per cent maximum fixed in the bill as it passed the house. Majority leaders in the senate also look forawrd to a compromise at around 40 per cent.
